

HIGH DUMP MEDIUM BUCKET

HIGH DUMP MEDIUM BUCKET

A bucket engineered for somewhat heavier tasks where the emptying height is crucial for efficient handling. The bucket has a clean inside and two standing cylinders with built-in cushion are integrated into the side of the bucket. A creative development for design has improved the buckets adjustment. The bucket is constructed to manage 1.0 tons/ m³ and 1,4tons/ m³. It is equipped with a straight cutting edge and attachment connection as standard. . **All bucket bodies are plate rolled (HARDOX 450) for the best stability, loading and unloading.**

ABL CE, can in this range as standard offer different sizes from **1300L/2200mm** to **12000L/3200 mm**. Equipped with Volvo or CAT base cut and a connection for a quick coupler.

Additions

- Fixed attachment (Pin On)
