

GRADING BUCKET RT

GRADING BUCKET RT

A bucket designed for optimal use together with all existing tilt rotators on the market. Bevelled corners, tailored top angle and open tapered form are few of the fine points for efficient excavating. The bucket is equipped with a long, flat bottom for more efficient grading work.

ABL CE, can in this range as standard offer grading buckets from **40L** to **2200L**. Widths between **700mm** to **2200mm**. Grading buckets are available as HD and LT version.

HD-buckets with abrasion resistant steel and LT-buckets without abrasion resistant steel. Attachment S30-S80 or S1-S3 as standard.

Advantages

- + Maximum strength
- + Easily excavated and good penetration
- + Clean inside
- + Adapted to Rototilt
