

HIGH DUMP LM BUCKET

HIGH DUMP LIGHT MATERIAL BUCKET

This bucket series increases the machine's emptying height. It has horizontal cylinders with built-in cushions at both ends and adjustable flow valve for emptying velocity. A creative development for design has improved the buckets adjustment. The bucket is equipped with a straight cutting edge and an attachment connection as standard. Constructed to manage 0,8 ton/m³. **All bucket bodies are plate rolled (HARDOX 450) for the best stability, loading and unloading.**

ABL CE, can in this range as standard offer different sizes from **1500L/2000 mm** to **1600L/4000 mm**. Equipped with Volvo or CAT base cut and a connection for a quick coupler.

Options

- Fixed attachment (Pin On)
- Wedge attachment
- If you need a customized bucket, please ask for a quotation
